

Approved For Release 2001/07/28 : CIA-RDP78-04718A000300050070-8

JUN 12 1957

Mr. F. Moran McConihe
 Commissioner of Public Buildings
 General Services Administration
 Washington 25, D. C.

Dear Mr. McConihe:

We have reviewed the enclosed manuscript specification for clearing and grubbing at the site for our new building which was referred to us by Mr. Van Vraaken under a transmittal letter dated August 6, 1957, and with a few relatively minor suggestions, find it to be satisfactory.

I am attaching our suggestions, referenced to the appropriate sections of the manuscript specification. These suggestions have been discussed with representatives of the Public Buildings Service and, I believe, are generally agreeable. With the adoption of these changes the specification will be acceptable, and this letter may be accepted as our concurrence.

Sincerely,

W. H. White
 Deputy Director
